

HOMEWORK

To complete this homework assignment, you will need to ask your mom, dad or guardian for help.

Before you begin, tell your mom, dad or guardian that you're learning about natural gas and propane safety in school, and you need to complete a home safety checklist. Read each phrase to them and check off his or her responses ("yes" or "no"). If you discover any safety problems, ask your mom, dad or guardian to fix the problem(s) as soon as possible. If you do not have natural gas or propane in your home, complete the safety checklist with an adult relative, like an aunt or uncle, or a family friend.

When finished, have the person with whom you completed the checklist sign his or her name at the bottom.
